## **II. Understanding the Syllabus and Personal Responsibility**

I understand that all syllabi required for my Flight Courses while attending Academy College are available on Moodle. It is my responsibility to check the syllabi quarterly for my current Flight courses as there may be updated versions of the syllabi available from quarter to quarter. I take all responsibility for downloading, reading, and understanding the syllabi each quarter. I understand the course requirements, procedures and attendance policy. I have noted the specific editions of the texts required for successful completion of this class. If I choose to purchase those texts from anywhere other than the school bookstore, no accommodation on the part of the instructor or the school will be made to adjust the classwork, readings, or assignments to the variances of any other textbook or its editions. Since grades are an indicator of regular attendance, personal effort and performance, I understand that it is my responsibility to earn the grade I desire in this class.
