The GoJet Airlines Pilot Pipeline program is among the best—if not the best—in the industry. GoJet was founded in 2004, and is currently offering a remarkable \$56,000 new hire bonus for hiring on as a First Officer. Current GoJet starting pay for First Officers is \$37.42 an hour, while Captains start at \$69.08 per hour.

GoJet works closely with both Delta and United, but perhaps the most remarkable opportunity they present is a pilot pathway that can have you working for major carrier Spirit Airlines after only 2 years at GoJet!

Current Academy students accepted in GoJet's Wingman program will be eligible for the following amazing benefits:

- ▲ An internship position (prior to graduation!) that will provide a pathway to a First Officer position at GoJet as soon as Restricted ATP minimums are met
- ▲ GoJet Airlines non-crew company badge
- ▲ Eligibility to participate in the GoJet Pilot Referral Program, which allows you to receive cash bonuses for pilots you refer who end up working for GoJet
- ▲ Eligibility to participate in airline training events
- ▲ Expedited interview and entry into GoJet
- ▲ Eligibility for \$10,000 in tuition reimbursement upon successful completion of GoJet's New Hire Initial Training
- ▲ Limited flight benefits
